

opportunity to highlight an amazing document that an amazing group of people wrote, and were it not for divine providence, as they refer to it, the hand of God, we would not be here as Americans today.

Mr. KINGSTON. I yield to the gentleman from Arizona.

Mr. HAYWORTH. I thank my colleagues for this opportunity and also to point out that this is a living document that we need to restore. That is our mission here in the 105th Congress as we work to honestly engage each other in debate and problem solving; as we work within this constitutional republic.

I mentioned earlier the work of Catherine Drinker Bowen and her book "Miracle at Philadelphia." Let me say, Mr. Speaker, that the miracle that should continue to astound the world is that we, as human beings, for all our failings and frailties and disagreements and challenges, have been able to preserve this constitutional republic for two centuries and a decade.

Indeed, the miracle occurred not in Philadelphia two centuries ago, although that was important, the miracle occurs in Phoenix, AZ; in Phoenix city, AL; in Flagstaff, AZ; in Savannah, GA. The miracle endures, and our challenge is to preserve it, to protect it, to defend it and to represent those who sent us here to the best of our abilities. And it is my privilege to yield to my colleague from Georgia for his closing thoughts.

Mr. KINGSTON. Mr. Speaker, I thank my colleagues. The interesting thing, along the lines of the words of the gentleman from Arizona [Mr. HAYWORTH] in 1997 were said nearly 100 years ago by Grover Cleveland, and these are his comments that I want to close with. It says, Mr. Speaker, and I quote:

The man who takes the oath today to preserve, protect, and defend the Constitution of the United States only assumes the solemn obligation which every patriotic citizen—on the farm, in the workshop, in the busy marts of trade and everywhere—should share with him. The Constitution which prescribes his oath, my countrymen, is yours; the government you have chosen him to administer for a time is yours; the laws and the entire scheme out of civil rule, from the town meeting to the State capitals and the national capital, is yours. Every voter, as surely as your chief magistrate, under the same high sanction, though in different spheres, exercises a public trust. Nor is this all. Every citizen owes to the country a vigilant watch and close scrutiny of fidelity and usefulness. This is the people's will impressed upon the whole framework of our civil policy—municipal, state, and federal; and this is the price of our liberty and the inspiration of our faith in the public.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2160) making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 1998, and for other purposes, submit the following joint statement to the House and Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

CONGRESSIONAL DIRECTIVES

The statement of the managers remains silent on provisions that were in both the

House and Senate Bills that remain unchanged by this conference agreement, except as noted in this statement of the managers.

The conferees agree that executive branch wishes cannot substitute for Congress' own statements as to the best evidence of congressional intent—that is, the official reports of the Congress. The conferees further point out that funds in this Act must be used for the purposes for which appropriated, as required by section 1301 of title 31 of the United States Code, which provides: "Appropriations shall be applied only to the objects for which the appropriations were made except as otherwise provided by law."

The House and Senate report language which is not changed by the conference are approved by the committee of conference. The statement of the managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein.

TITLE I—AGRICULTURAL PROGRAMS

PRODUCTION, PROCESSING, AND MARKETING

OFFICE OF THE SECRETARY

The conference agreement adopts language as proposed by the Senate to prohibit the use of salaries and expenses to carry out section 793(c)(1)(C) of Public Law 104-127, a limitation on housing assistance, and section 793(d) of Public Law 104-127, a limitation on program levels in the Fund for Rural America. The House bill had no similar provisions.

EXECUTIVE OPERATIONS

OFFICE OF THE CHIEF ECONOMIST

The conference agreement provides \$5,048,000 for the Office of the Chief Economist instead of \$4,844,000 as proposed by the House and \$5,252,000 as proposed by the Senate. Included in this amount is \$656,000 to enhance the Department's weather information activities.

Included in this amount is \$5,000,000 for repairs, renovations, and construction as proposed by the Senate instead of \$15,000,000 as proposed by the House. The conference agreement also deletes language proposed by the Senate expanding the use of operation and maintenance funds.

HAZARDOUS WASTE MANAGEMENT

The conference agreement provides \$15,700,000 for Hazardous Waste Management as proposed by the Senate instead of \$20,000,000 as proposed by the House.

The conference agreement provides \$63,128,000 for the Office of the Inspector General as proposed by the House instead of \$63,728,000 as proposed by the Senate. Included in this amount is \$95,000 for confidential operational expenses as proposed by the House instead of \$125,000 as proposed by the Senate.

OFFICE OF THE GENERAL COUNSEL

The agreement provides \$420,000 for a study by the National Academy of Sciences on the scientific and organizational needs for an effective food safety system, including functions overseen by the Food Safety and Inspection Service, the Food and Drug Administration, and other Federal, state and local

agencies with responsibilities for food safety. The study will be conducted in two phases. The first phase will examine the current mechanisms in place for assuring a safe food supply and the extent to which they are effective in addressing food safety issues from the farm to the table. It will also analyze the extent to which current functions (i.e., inspection, surveillance, monitoring, research, risk assessment, and education) should be assigned or reassigned to existing food safety agencies or an independent food safety agency. It should also identify whether any functions would be compromised by such an action. If an independent food safety agency is recommended, the second phase will develop further guidance to ensure that the food safety system protects the public's health and is cost-effective. A report on the first phase should be transmitted to the appropriate Committees of Congress no later than August 15, 1998.

The conferees support the food safety initiative and expect the Agricultural Research Service to work with the Food and Drug Administration, the National Institute of Diabetes and Digestive and Kidney Diseases, the National Institute of Allergy and Infectious Diseases, and the Centers for Disease Control and Prevention to develop a biomedical research agenda on food safety.

The conferees expect the work on controlling root diseases of wheat and barley in cereal-based production systems to continue at the Pullman, WA, ARS research station at the fiscal year 1997 level.

The conferees support the addition of a new lettuce geneticist/plant breeder position at the U.S. Agricultural Research Station in Salinas, California.

The USDA-ARS National Sedimentation Laboratory is directed to initiate an integrated watershed research program of monitoring, analyzing, and evaluating sediment production, movement and deposition and their impacts with appropriate solutions on stream degradation, flooding and management of upland areas, environmental and ecological concerns in the Yalobusha River Basin, stream estuaries, and Grenada Lake.

The conferees expect the ARS to expand its work on Meadowfoam research in Oregon and at the Peoria laboratory.

The bill includes language proposed by the House that returns ownership of the Pecan Genetics and Improvement Research Laboratory to the Agricultural Research Service.

BUILDINGS AND FACILITIES

The conference agreement provides \$80,630,000 for Agricultural Research Service, Buildings and Facilities instead of \$59,000,000 as proposed by the House and \$69,100,000 as proposed by the Senate.

ANIMAL AND PLANT HEALTH INSPECTION
SERVICE

SALARIES AND EXPENSES

The conference agreement provides \$426,282,000 for the Animal and Plant Health Inspection Service instead of \$424,244,000 as proposed by the House and \$437,183,000 as proposed by the Senate. Included in this amount is \$1,255,000 for rabies control activities in Ohio, Texas, New York, and other states.

The conferees are aware of the cooperative efforts of APHIS in controlling boll weevils

in New Mexico and that cotton farmers in New Mexico are continuing a voluntary assessment for eradication. The conferees urge APHIS to continue its cooperative effort for boll weevil eradication in New Mexico.

Included in the total amount provided for the boll weevil eradication plan, the conferees provide not less than \$400,000 to continue the geographic information system project to prepare for future expansion of the program into remaining cotton production regions that have not eradicated the boll weevil. The technology developed through

this system will be transferred to these regions as the program expands, reducing overall program costs.

The conferees direct that APHIS continue its efforts to maximize cost sharing of control activities in all states to the extent possible. However, the conferees recognize that circumstances vary among states and do not support implementation of the rigid cost sharing requirement proposed in the budget.

BUILDINGS AND FACILITIES

The conference agreement provides \$4,200,000 for Animal and Plant Health Inspection Service, Buildings and Facilities as proposed by the Senate instead of \$3,200,000 as proposed by the House.

AGRICULTURAL MARKETING SERVICE

MARKETING SERVICES

The conference agreement provides \$46,592,000 for the Agricultural Marketing Service instead of \$45,592,000 as proposed by

the House and \$49,627,000 as proposed by the Senate. Included in this amount is \$1,000,000 for marketing assistance to Alaska.

GRAIN INSPECTION, PACKERS AND STOCKYARDS
ADMINISTRATION

The conference agreement provides \$23,928,000 for the Grain Inspection, Packers and Stockyards Administration as proposed by the House instead of \$23,583,000 as proposed by the Senate. Included in this amount is \$800,000 for packer concentration as proposed by the House.

FOOD SAFETY AND INSPECTION SERVICE

The conference agreement provides \$589,263,000 for the Food Safety and Inspection Service as proposed by the House instead of \$590,614,000 as proposed by the Senate.

The conference agreement amends House bill language requiring that \$5,000,000 shall be available for obligation only after a final rule is implemented regarding subsection (c) of Section 5 of the Egg Products Inspection Act (21 U.S.C. 1034 (c)). The conference agreement states that the \$5,000,000 shall be available for obligation only after promulgation

of a final rule to implement that provision. The conferees direct that if a final rule is not promulgated, the Department is not to take the reduction from any funds appropriated for the Food Safety Initiative or any inspection services. The conference agreement does not restrict the Department from promulgating rules beyond the scope of subsection (c) of Section 5 of the Egg Products Inspection Act (21 U.S.C. 1034 (c)).

FARM SERVICE AGENCY

SALARIES AND EXPENSES

The conference agreement provides \$700,659,000 for the Farm Service Agency as proposed by the Senate instead of \$702,203,000 as proposed by the House. The agreement also provides transfers to the Farm Service Agency of \$589,000 from the export loan program, \$815,000 from the P.L.-480 program, and \$209,861,000 from the Agricultural Credit Insurance Fund for a total available of \$911,924,000.

The conferees expect USDA to execute its current office streamlining in a manner that reflects differences among the States and that uses criteria including workload, complexity, and accessibility rather than an arbitrary process based solely on distances between county offices.

DAIRY INDEMNITY PROGRAM

The conference agreement provides \$550,000 for the Dairy Indemnity program as proposed by the Senate instead of \$350,000 as proposed by the House.

AGRICULTURAL CREDIT INSURANCE FUND
PROGRAM ACCOUNT

The conference agreement provides a total subsidy level of \$102,419,000 providing for an estimated loan level of \$2,940,653,000 for the activities under the Agricultural Credit Insurance Fund.

RISK MANAGEMENT AGENCY

The conference agreement provides \$252,571,000 for the Risk Management Agency instead of \$253,571,000 as proposed by the House and \$266,571,000 as proposed by the Senate. The agreement includes \$64,000,000 for administrative and operating expenses of the agency and \$188,571,000 for the payment of administrative and operating expenses of approved insurance providers.

The conferees note the difficulty in providing funds for the sales commissions for crop insurance agents. This problem will continue without a change in permanent law. The conferees expect the Department to submit legislation to effect a change to permanent funding for this activity.

TITLE II—CONSERVATION PROGRAMS

NATURAL RESOURCES CONSERVATION SERVICE
CONSERVATION OPERATIONS

The conference agreement continues funding conservation operations, watershed surveys and planning, and watershed and flood prevention operations as three separate accounts as proposed by the House. The Senate

proposed to fund watershed surveys and planning and technical assistance of watershed and flood prevention operations under the conservation operations account and had a separate account for watershed and flood prevention operations financial assistance.

The conference agreement provides \$833,231,000 for conservation operations. Included in this amount are the following: \$350,000 for the Great Lakes Basin Program for Soil and Erosion Sediment Control; a total of \$3,000,000 for technical assistance in Franklin County, Mississippi; \$15,000,000 for the grazing lands initiative; \$100,000 for the Trees Forever program in Iowa; and \$750,000 for the Deer Creek watershed in Oklahoma. The conferees also provide \$300,000, through the Environmental Quality Incentives Program, for the project to assist farmers surrounding Lake Otisco in central New York. The conferees do not provide funding under this account for poultry waste energy recovery.

The conference agreement includes language proposed by the House to transfer ownership of the plant materials center lo-

cated at Bow, Washington to the Skagit Conservation District. The Senate bill had no similar provision.

The conferees encourage the Department to continue the cooperative agreements it has established with private conservation organizations to support the implementation of the Wetlands Reserve Program.

WATERSHED SURVEYS AND PLANNING

The conference agreement provides \$11,190,000 for watershed surveys and planning instead of \$10,000,000 as proposed by the House. The Senate proposed funding for this account under Conservation Operations.

WATERSHED AND FLOOD PREVENTION
OPERATIONS

The conference agreement provides \$101,036,000 for watershed and flood prevention operations as proposed by the House. The Senate proposed funding for this account under Conservation Operations. The conference agreement includes language as proposed by the Senate to provide that up to \$15,000,000 of the total may be available for P.L. 534 projects. The conference agreement

also includes language as proposed by the House limiting the amount available for technical assistance to not more than \$50,000,000.

While conferees do not earmark \$1,800,000 for the Potomac Headwaters project as proposed by the Senate, they support continuation of the project. The conferees note the importance of reducing poultry and other waste load-related problems in the South Branch of the Potomac River and encourage the Department to work with the West Virginia Department of Agriculture for further development of the poultry waste energy recovery (POWER) project at Moorefield and project implementation at Franklin.

RESOURCE CONSERVATION AND DEVELOPMENT

The conference agreement provides \$34,377,000 for the Resource Conservation and Development program instead of \$29,377,000 as proposed by the House and \$44,700,000 as proposed by the Senate. The conferees do not specifically earmark this increase for any initiative, instead the conferees expect that

this increase will be used for approved RC&D councils waiting for funding.

The conferees expect the NRCS to submit a detailed operating plan for the Resource Conservation and Development program for fiscal year 1998 to the House and Senate Committees on Appropriations no later than 30 days after enactment of this Appropriations Act. This operating plan should include a proposal for expenditure of available funds for each RC&D area. The operating plan should compare proposed funding levels to the initial fiscal year 1998 budget request and fiscal year 1997 current operating levels, and should include narrative explanations as appropriate. The conferees expect the NRCS to consult with the House and Senate Appropriations Committees to develop this operating plan, which will serve as the basis for re-programming notifications throughout the remainder of the fiscal year.

OUTREACH FOR SOCIALLY DISADVANTAGED FARMERS AND RANCHERS

The conference agreement provides \$3,000,000 for the Outreach for Socially Dis-

advantaged Farmers and Ranchers Program instead of \$2,000,000 as proposed by the House and \$4,000,000 as proposed by the Senate. The conferees note that, in addition to the funding received through appropriations bills, the program has also received \$4,500,000 from the Fund for Rural America.

TITLE III—RURAL ECONOMIC AND COMMUNITY DEVELOPMENT PROGRAMS

RURAL COMMUNITY ADVANCEMENT PROGRAM

The conference agreement provides \$652,197,000 for the Rural Community Advancement Program (RCAP) instead of \$644,259,000 as proposed by the Senate. The House bill did not provide funds for the Rural Community Advancement Program, but provided funding for its activities under three separate accounts: the Rural Housing Assistance Program, the Rural Business-Cooperative Assistance Program and the Rural Utilities Assistance Program.

The following table reflects the conference agreement:

Total	77,313,000	67,698,000	92,313,000	75,748,000

The conferees recognize the continuing problem of out migration in rural counties across the country and the efforts being made through the Rural Economic Area Partnership (REAP) pilot program. The conferees recommend that Rural Development, as the lead agency for this pilot program, give priority assistance to the REAP zones.

The conferees urge the Department to consider the following projects which were not mentioned in the House and Senate reports. The conferees expect the Department to apply the same criteria of review to these projects as are used for other applications.

Under Rural Business Enterprise Grants:

Rural Development and Finance Corporation, Raymondville, Texas
Renewable Resources Research Institute, Midwestern states
University of Colorado Health Science Center
Under Rural Utilities Programs:
